RE: AMERICAN MILLENNIUM, INC.

To Whom It May Concern:

This letter is written to demonstrate my belief and support of Chris Chandler and his American Millennium project. I have known Chris for several years and have always been impressed with his enthusiasm and desire to think of the possibilities that life can offer, rather than the limitations, and that one day he would offer great things to our community.

With American Millennium, Inc., I believe Chris is on course to do just that. I have spent considerable time listening, and questioning, his plan and I have found it to be very well thought out and organized. The concept of promoting the educational value of travel to American's college students, and creating an infrastructure to make it all possible, is something that offers tremendous benefit to this great country.

Please allow Mr. Chandler the opportunity to present his ideas to you. I believe, with support from our community, the American Millennium project will soon make us all very proud.

Should you wish to discuss this further, please call me at 318-222-0555.

Cordially,

Virginia K. Shehee
President/CEO
